PROCESS DESCRIPTION VERSION 4.0 (JUNE 2010)

POSSIBLE ROLES: RECEPTIONIST/CASHIER /CLINIC ASSIST. PROCESS 3.2.0: CREATING CLIENT APPOINTMENTS

#	Step	Observations	Menu options or screen information
0	Preliminary steps: A service provider schedule has to be properly created in advance	Refer to Clinic Manager or CMS Manager if the relevant provider schedule is not available or properly configured	All Users 2009-08-17 Day View Ge Today Add Search Ching Chindset <
1	Display Appointment control screen by selecting the following menu options: Client > Visit > Calendar	The appointment page is the default top screen when you enter OpenEMR. If this screen has changed select Calendar	Usits
2	Once the appointment data has been obtained locate the screen in the appropriate DAY	 To locate the appropriate date in Appointment screen: Enter date and press Go, or Move backwards or forward with arrow heads (<< or >>) Press Today button for today's date 	2008-04-24 Day View • Go Today << Thursday, April 24, 2008 >>
3	Select the appropriate service provider and time	Example: Select the appropriate service provider: Dr. C. Samad, Select appropriate time by clicking on the time link: 8:45 am	D Samad 8:00 IN - Gynecologist / MR Specialist 8:15 8:30 8:45 9:00
4	 Fill out appointment form Select appropriate Visit Category Verify date, time, provider, duration Find client clicking on Client field ("Click to select"). A search engine window will be displayed as follows (use the same search rules as with the Search Engine in main menu) 	Visit Category: • Select appropriate visit category from drop-down menu: Office Visit • 1 Admission • 2 Rewstit • 3 Counseling Only • Supply/Re-Supply • 5 Administrative • Referral INBOUND • Complete remaining fields (if in doubt see Section 2.1.6 Managing appointments in User's Manual)	Category: 2 Re-Visit All day event Date: 2009-08-23 Time 8<:45
5	Scenario 1: If client already exists in system, simply select her/his name in the client list displayed Hint: For a quick search, enter the 3 initial letters of the client last name, or enter a comma (,) in the 'for' field for a complete list.	Example: Search criteria: c Client: Edith Castro	Search by: Name for: Search 13 records found. 13 records found. Name Phone SS D08 Client ID Assumpçao, Joubert 0000-00-00 98 Biack, Luchda 1979-10-23 1023 Carsile, Beinda 325642255 369874 1961-10-05 285233 Castro, EdM Marine 256445445 123878543 1980-01-05 1 Chachagua, Alexander 1980-01-05 1 1 1
6	Scenario 2: If client is not registered but already has a physical client record, you will need to go to Client > Client management > New Note: create this as a new client (see specific process Creating a new OpenEMR record), entering all fields required. Be careful to specify the <u>original</u> data; in particular the Registration Date, as indicated by the first visit in the physical file.	Hint: If you do not have enough time to create the client record, you can create a RESERVED appointment (without defining the client). Later you can create the client record and update the appointment with the client's name	Example of Reserved appointment at 9:00 am: Category: 1 Admission
7	Scenario 3: If client is new to the clinic, enter his/her data, enter today's date as Registration date and assign a Client Number	See Process Guideline: "Creating a new OpenEMR record" or the corresponding chapter in the User's Manual
