Rochester, NY 14623

OBJECTIVE

To connect with people and organizations that will benefit from my skills, to broaden my own base of experience, and to deliver prompt, reliable service meeting and exceeding the high standards that a business environment demands.

EXPERIENCE

2005-2006

American Fiber Systems

Rochester, NY

AFS builds, owns, and maintains fiber networks in nine major metropolitan areas across the United States of America. Business operations are homed here in Rochester, NY at the main office in the Meridian Centre Office Park off Winton Avenue.

IT Associate

- Built internal-use-only web application using Apache and PHP, integrating with a pre-existing Active Directory environment.
- Testing and deployment of IBM servers, maintenance of previously deployed Sun and Windows servers.
- Migration of proprietary NEC PBX system to Cisco IP Phones with Linux/Asterisk Open Source Telephony Platform.

Summer 2005

Robinson Home Products

Buffalo, NY

Robinson Home Products markets quality kitchen utensils and food preparation tools. Robinson evolved from a manufacturer of cutlery, kitchen tools, scissors, and fine edged industrial components.

Summer Internship

- Inventory management, packing and shipping for Wal-Mart and other customers, and new employee orientation.
- Handled integration issues for SuSE Enterprise Linux, Novell Groupwise and Blackberry Enterprise Server.

2003-2004

Financial Institutions, Inc.

Warsaw, NY

Financial Institutions, Inc. is a bank-holding Company that provides consumer, commercial and agricultural banking services through our bank and a non-bank subsidiaries.

Intranet Developer

- Ground-up implementation of XML-based Intranet workflow and form processing software on a Microsoft IIS environment.
- Planned and started development of automated B2B/EDI services for integration of office supply chain with StaplesLink.com.
